Storm Events Database

Event Details:

Event	**Tornado**
-- Scale	**F1**
-- Length	**8 Miles**
-- Width	**60 Yards**
State	**COLORADO**
County/Area	**DELTA**
WFO	**GJT**
Report Source	**EMERGENCY MANAGER**
NCEI Data Source	**PDS**
Begin Date	**2002-09-11 16:05 MST**
Begin Location	**4W DELTA**
Begin Lat/Lon	**38.68333/-108.15**
End Date	**2002-09-11 16:20 MST**
End Location	**4W DELTA**
End Lat/Lon	**38.78333/-108.13333**
Deaths Direct/Indirect	**0/0** (fatality details below, when available...)
Injuries Direct/Indirect	**0/0**
Property Damage	**25K**
Crop Damage	
Episode Narrative	**The tornado traveled north-northeast across mostly open country and was observed by numerous eyewitnesses in Delta County. The tornado crossed US Highway 50 and proceeded across the west end of Hawkins Field Airport. A house in the northwest area of the airport was struck. The house sustained numerous broken windows and other damage. Many shingles were ripped off the roof, and some became impaled into the siding. Airborne rocks and other debris also became embedded into the siding and interior walls. Furniture inside the house was damaged by flying debris. The railing on the deck was ripped off. A number of items were blown out of the house and a shed adjacent to the house was destroyed. Property from the house and shed were found up to a quarter mile away from the house.**

Event Map:

Note: The tornado track is approximate based on the beginning (B) and ending (E) locations. The actual tornado path may differ from a straight line.
